FRUITS OF THE SOIL.

With the Co-operation of the People a Traveling Exhibit will be Sent East.

To Visit Western State Fairs—A Rare Opportunity to Advance New Mexico's Prosperity.

The executive committee of the New Mexico bureau of immigration held a meeting at the executive office yesterday. There were present President F. A. Manzaneros, Gov. Prince, E. A. Fiske, esq., Sec. Frost and Col. Edward Haren, the latter representing the immigration interests of the A. T. & S. F. railroad company.

The question of the urgent needs of a new map of New Mexico was discussed, and the secretary was directed to get up and have printed a map containing the latest data on settlements, valleys and water courses, springs, etc., and especially showing the irrigation systems now in course of construction in various parts of New Mexico.

A LIBERAL OFFER.

Col. Haren said he had been authorized to say that the A. T. & S. F. company was willing and anxious to advance the settlement of New Mexico's farm lands as rapidly as possible; that the best method of doing this was to advertise our resources in such a way as to give the people of the western states, substantial, actual proof of our fertile soil, and to this end the A. T. & S. F. proposed to furnish, free of cost, the necessary cars to take an exhibit of New Mexico's fruits to the fairs in the states of Kansas, western Missouri, Nebraska, Iowa, Michigan and Wisconsin. This generous offer was promptly accepted by the bureau, and steps were taken to

CARRY OUT THE PLAN.

It was decided that this experiment should be made by giving the three oldest fruit-growing districts in the territory a chance to participate in the enterprise. These districts were arranged to comprise the southern Rio Grande valley about Las Cruces, Mesilla and vicinity, the central Rio Grande valley comprising Albuquerque and Bernalillo and Socorro counties, and the upper Rio Grande country including the Santa Fe valley and the valleys of the Rio Tesuque, Volcane and Santa Cruz.

The citizens of Las Cruces, Albuquerque and Santa Fe were each invited to name one man who shall have charge during this trip of

THEIR RESPECTIVE EXHIBITS, after they are collected and made ready by the joint action of the people, and these three men shall be under the supervision of a representative of the New Mexico bureau of immigration while on this mission. The sum of \$250 was appropriated by the board toward carrying this matter into practical operation. Of this sum, \$100 will go toward footing the expenses of the board's representative on this journey, and \$50 each goes to start the enterprise at Las Cruces, Albuquerque and Santa Fe. It is thought the fairs of the above named states can all be visited with such an exhibit in thirty days time. Good and competent men

AMONG THE MINES.

Short Notes Relating to South Santa Fe County's Great Industry.

Orders have been given for the immediate erection of an office, laboratory and boarding house near the Lincoln-Lucky property.

A Mr. Montaine has been given the contract to erect the cable tramway between the Santa Fe Copper company's smelter and mine.

Two shifts are at work on the Bullion claim and the pay shaft is widening as depth is attained. Old miners say this is destined to be one of the best mineral producers in the camp.

Isn't it a little bit peculiar that Cerrillos, with her silver and lead ores, coal and coke, charcoal, limestone and all that is necessary to supply a smelter, yet remains without a first class smelting plant. Here's a rare chance for capital and brains.

Two Colorado mining experts and another of the same genus from Kansas City are making their headquarters at Cerrillos. They are on a still hunt, but from their staying qualities it is half way suspected that they have their eyes on what they want.

Two pay days are near at hand, and howling times may be looked for. The Lincoln-Lucky people pay off on Saturday and the Santa Fe Copper company on Monday. More than \$20,000 will be turned loose in the New Leadville by these two events.

Gentlemen who arrived here this week from San Pedro, the great carbonate camp of New Mexico, report things as lively and bustling there. Money and work are plentiful, yet there, as in all other places, some people are without either.—Nogal Nugget.

San W. Bonner, one of the mining assistants in the general store of White, Giblin & Co., is in from Pedro. He says this store is as valuable as a diamond mine, and everybody thereabout is kept on the dead jump attending to business. He also says that San Pedro's boom reminds him very forcibly of the oil towns of Pennsylvania—everything life and excitement.

FRUITS OF THE SOIL.

continue to grow and all of New Mexico will be benefited.—Gallup News-Register.

The San Pedro town site people to-day ordered 300 copies of a large map of the new town issued from the New Mexican's job department.

General Manager Robinson, Supt. Santa, and other officials of the A. T. & S. F. railroad company yesterday and are believed to be going to San Pedro at the present writing. The party is looked for to-morrow at Las Vegas hot springs.

To-morrow Messrs. H. L. Warren, S. M. Folsom, Jefferson Reynolds, S. D. Baldwin and others of the Lincoln-Lucky company will meet in Santa Fe for the purpose of transacting business touching the advancement of San Pedro's interests.

Jerry Haverly, who was former superintendent of the Martin gold mine, and who just returned from Zacatecas, Mexico, where he built and put in operation two mills, was arrested yesterday at the instance of Albuquerque parties, charged with shooting a horse. About twenty residents of San Pedro were summoned and were dragged away at great annoyance and personal expense to the self-styled "metropolis" to act as witnesses. When the case came up before a local justice the man who had filed the accusation against Haverly appeared and said that wasn't the man who shot his horse. The witnesses got back this morning, many of them coming on to Santa Fe, to do their trading before returning home.

The many remarkable cures Hood's Sarsaparilla accomplishes are sufficient proof that it does possess peculiar curative powers.

ROUND ABOUT TOWN.

Special meeting of John Gray Horse company is called for 8 o'clock to-night, by the assistant foreman, J. W. Conway.

The finest lot of pine ceiling ever laid in Santa Fe is going in at the Kahn block. It is of a rich yellow and is beautifully grained.

There are no flies on the present transcontinental mail service. Three and a half days is all that it takes to bring a letter from Buffalo, N. Y., to Santa Fe.

County Commissioner Wyllys threatens to improve the plaza by putting in newly painted iron benches and all that. Then would the people rise up and call him blessed.

By all means let's have the bean eating contest. Billy Barton would make an admirable referee. He knows how to cook 'em, too, so there will be no danger of serious results.

Thos. Goodwin, of McKenzie's, is suffering from a needle in his foot. The thing broke in two and the surgeons can't locate it, hence the wound is not only painful, but not altogether a safe one to wrestle with.

The parent house of the Sisters of Loreto in this city has visitors at present from every institution in New Mexico. In all there are eighty sisters present, and this evening they begin a retreat which will continue till the 15th inst.

A car load of bridge timber was unloaded in the Santa Fe Southern yards yesterday. The bridges on the present line are comparatively new and in an excellent condition. It is just possible that this is a substantial sign of early construction toward Cerrillos and Santa Fe.

Mrs. Phil Warner's grey horse took fright on Palace avenue this morning, broke its hitching strap and came down the avenue at a lively tilt. Lancing after it a two wheeled cart. The animal cleared the hurdle, and carried cart and wheels with it. However the latter separated inside the plaza and the springs were pretty badly wrecked.

Dulrow & Bear are getting in 100,000 feet of lumber for the government Indian school. It comes over the narrow gauge from Tres Piedras. The great mills of Stewart & Co. there are doing an excellent business here. Frequently a telegram is sent there in the morning ordering lumber and the order is hauled in and side tracked at the Santa Fe Southern's depot the same day.

The Fisher Brewing company is enjoying an unprecedented season of prosperity. Its superior product is gradually knocking out all other beers in the southwest, and it need not surprise anybody to learn that the capacity of the plant is to be doubled at no distant day. This institution now employs an even dozen men, and more than half the time they are at work till midnight.

On Sunday the W. C. T. U. visited the penitentiary and distributed flowers among the prisoners. The society is particularly indebted to Mrs. T. B. Catron for a large number of beautiful bouquets furnished from her own garden; to Miss Creutzberg, Miss Jessie Moore, Mr. Ambrose Klein, Mr. Adolphus Klein, Mr. F. P. Crichton and Mrs. Octaviano Torres for assistance in the musical part of the exercises, and to the warden and other polite officials of the penitentiary for the opportunity to hold these pleasant services in the chapel.

PERSONAL.

Alfred Randall, of Golden, registers at the Exchange.

Walter Virden, U. S. timber inspector with headquarters at Tucson, is in the city. E. E. Slader, agent for the Ortiz mine grant, is here from Dolores. He reports the Wiswell mill there doing steady and excellent work.

At the Palace: W. B. Loring, Colorado; Geo. Vasey, Washington; D. W. Turner, W. F. Duget, Kansas City; A. R. Krum, Chicago; Richard Battis, Denver; J. G. Moody, City; Mrs. M. Romero, Colorado; J. M. Garner, New Mexico; B. G. Kraus, New York; J. Reynolds, Las Vegas.

A Pleasant Affair.

Under the auspices of the W. C. T. U. a union gospel temperance meeting was held Saturday night at the M. E. church. Among other exercises there were readings by Miss Bischoff, Miss Tinsley and Miss DeSette and a recitation by Miss May Berger.

The instructive essay on alcohol Miss Bischoff had selected from the writings of Dr. Leonard, and read so clearly and impressively that the audience was able to appreciate its great value.

Miss Pond proved herself a thoroughly qualified and efficient organist, and singing of Miss Creutzberg, Miss Jew Moore and Mrs. C. J. Moore, and of J. Crichton, Mr. Littlehales, Mr. Bigg, Mr. W. V. Vidon and Mr. W. J. Supp. The order and added not a little to the interest of the meeting.

COUNTY INDEBTEDNESS.

The First Move Toward Funding Some of It—Form of Bond—Important Amendment.

Commissioner Martinez returned from Pena Blanca late yesterday afternoon and a short session of the county board was held between 4 and 5 o'clock. The following was drawn up and ordered printed in the New Mexican:

SALE OF BONDS.

SANTA FE, N. M., Aug. 5, 1889.—The board of county commissioners of Santa Fe county, N. M., will receive bids until August 20, 1889, for the sale of the whole or any part of \$20,000 of Santa Fe county current expense bonds, redeemable at the pleasure of said county in ten years and absolutely due and payable thirty years after the date thereof, with interest thereon at the rate of 6 per cent per annum. The right to decline any or all bids is reserved. By order of the board of county commissioners.

M. Garcia, Probate Clerk.

The form of a funding bond was adopted which stipulates that such bonds shall be issued in sums of \$100, \$500 and \$1,000; redeemable at the pleasure of the county after ten years; absolutely due and payable after thirty years, at the First National bank city of New York, with interest at the rate of 6 per cent per annum, payable semi-annually. The bond also recites that this issue is based upon an act of the New Mexico legislature, approved February 19, 1889, "the county funding law," and amendments thereto, approved February 28, A. D. 1890, and that "the said indebtedness for which this bond is issued was incurred prior to the 31st day of July, A. D. 1889, and that the said indebtedness shall not apply to any indebtedness incurred prior to July 31, 1889, that was in excess of 4 per cent of the value of taxable property in the county, according to the last previous assessment, except where such indebtedness accrued or may accrue in pursuance of contracts made prior to July 30, 1889."

This exception is said to apply particularly to contracts made with the Santa Fe Water & Improvement company, and it is claimed by many will also permit the funding of \$50,000 in county warrants issued for the purpose of building the court house, the latter bonds bearing date of July 1, 1886, and it is claimed, come under the head of "indebtedness accrued in pursuance of contracts made prior to July 31, 1889."

The county board will hold another session on Friday.

Syrup of Figs.

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

OFFICIAL AND OTHERWISE.

DEPARTMENT OF AGRICULTURE.

Office of the Secretary, Washington, D. C., July 16, 1889.

To His Excellency, the Governor of New Mexico. Dear Sir: Dr. George Vasey, the chief of the botanical division of this department, visits New Mexico for the purpose of studying its climate and forage conditions with a view of co-operating with the New Mexico experimental station, in grass and forage experiments. Will you please give him such information and assistance as you may be able to do, to the end that your territory may receive its share of consideration from this department, especially in the line of an increase of forage productions. Yours respectfully, J. M. Ross, Secretary.

The gentleman referred to in the above letter arrived in Santa Fe last night and will be a guest at the Palace for several days. It is suggested that citizens who are interested in New Mexico agriculture confer with him during his stay here.

THE NEW SURVEYOR GENERAL.

The dispatches of last night bring word of the appointment of Mr. E. F. Hobart, of Las Vegas, to be surveyor general. The gentleman is a bona fide citizen of New Mexico, having been manager of the Aguas Puras company at Las Vegas hot springs for some eight years or more, and he is very well known all over the territory. He has been in the race from the start and has made a good fight. Mr. Hobart is a native of Minnesota, it is believed, is a practical surveyor and a man of ability tempered with a large share of hard common sense. He is a brother of Mr. H. R. Hobart, one of the editors of that sterling class journal, the Railway Age, and an excellent friend with strong senatorial backing from several northwest states, also with a good word of endorsement from Gen. Lew Wallace.

IN THE DISTRICT COURT.

In the district court this morning his Grace Archbishop Salpointe appeared and was admitted to full American citizenship, taking the formal oath before the clerk of court. The case of the U. S. vs. Dr. Kittredge, of Taos county, charged with violation of the "Edmunds act" was called up and continued, the defendant being absent in California. At the suggestion of Mr. Catron, the members of the bar, concurring Judge Whitman, then adjourned court till 10 a. m. to-morrow, in order to permit those about the court to take part in the election for delegates to the state convention.

THE ELECTION.

The election of delegates to represent Santa Fe county in the state constitutional convention, which assembles for a thirty days session at the capitol on Sept. 3, is in progress to-day, and goes on without incident. The chances are that the vote will be a light one. The delegates being voted for are Messrs. T. B. Catron, Anikito Aheytin, Nicholas Finn, W. F. Clancy, P. L. Vandervoort and J. D. Sena.

FALSE ALARM.

The street had it this morning that a new internal revenue collector for the district of New Mexico had been appointed by President Harrison, and rumor also said that such appointee was a prominent colored man, a friend of ex-Gov. Warrenton, of Mississippi, but there seems to be no basis whatever for such a report, at least no such dispatch came over the wires as was currently stated.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physicians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me." Jesse M. Boggs, Holman's Mills, N. C.

For beauty, for comfort, for improvement of the complexion, use only Pepsin's Powder, there is nothing equal to it.

Epuch.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the great alterative and tonic. If you are troubled with any disease of kidneys, liver or stomach, of long or short standing, you will surely find relief by use of Electric Bitters. Sold at 50 cents and \$1 a bottle at C. M. Creamer's drug store.

For Dyspepsia.

And Liver Complaint, you have a printed guaranty on every bottle of Shiloh's Vitalizer. It never fails to cure. C. M. Creamer.

Fresh hams, choice breakfast bacon and the finest of sausage, cheaper than the cheapest, at Dobbins's.

Bids Solicited.

Bids for contract to finish a well are solicited at St. Catherine's Indian school, situated north of the city. The well has already been dug to the depth of 100 feet. Bids will be received till August 10, 1889. We reserve the right of accepting or rejecting all bids.

Rev. THOMAS BURK, O. S. B., Supt.

Shiloh's Catarrh Remedy, A positive cure for catarrh, Diphtheria and Canker Mouth. C. M. Creamer.

Saw Mill for Sale.

For \$1,000. In perfect order. Capacity to produce a million and a half of lumber in a season. Will be delivered complete to purchaser on A. T. & S. F. cars. Inquire at the New Mexican office.

Are You Made

Miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow Skin? Shiloh's Vitalizer is a positive cure. C. M. Creamer.

Sale of Bonds.

LOS LUNAS, N. M., County of Valencia, July 16, 1889.—I will receive bids until August 12, 1889, for the sale of the whole or any part of \$30,000 of Valencia county current expense bonds, redeemable at the pleasure of said county in ten years, and absolutely due and payable thirty years after the date thereof, with interest thereon at the rate of 6 per cent per annum. The right to decline any or all offers is reserved. By order of board of county commissioners.

CARLOS BACA, Probate Clerk.

CLAM JUICE. The great digestor.

AT BILLY'S.

The Rev. Geo. H. Thayer.

Of Bourbon, Ind., says: "Both myself and my wife owe our lives to Shiloh's Consumption Cure."
